SAFETY INSTRUCTIONS

1. Only entrust loudspeaker mounting equipment to experienced professionals. Also strictly follow the provided safety instructions. Improperly installed mounting equipment may result in property damage, personal injury and/or liability for the installing contractor.
2. **Always use safety cables!** This will prevent equipment from falling during/after setup and while exploiting.
3. Always check if the wall surface is structurally strong enough to support load. Make sure the wall and/or ceiling structure allows to hold the weight of the speaker including its bracket.
4. Only use appropriate fasteners.
5. Always make sure to securely use and tighten/lock all mounting bolts provided. Loose bolts may become unscrewed over time due to vibration which could potentially create a safety hazard when not tightened securely.
